School Development Plan- 25/26- Parent overview

A development plan focuses on what we need to do to be the best school we can.

Quality of Education

Ensure the curriculum is planned and delivered as intended so that more children achieve at least in line with age related expectations

We will do this by:

- There will be a new marking and feedback policy in school allowing for effective and quick feedback to children
- A new writing curriculum is being embedded
- Continue to prioritize early reading
- In Math's we will ensure children have secure foundational skills before teaching new content.

Behaviour and Attitudes

We will maintain high standards of behaviour and attendance.

We will do this by:

- Maintaining high expectations for attendance and providing support for families where there are barriers to attending well.
- Refresher training for all staff on behaviour management strategies
- Where behaviour plans are in place that they are being followed carefully by all staff

Personal Development

Enhance personal development opportunities to ensure children are ready for life in modern Britain.

We will do this by:

- Further develop our program of experiences and cultural opportunities.
- Ensure all children regardless of background have equitable access to all enrichment experiences.

Leadership and Management

Strengthen leadership and governance to drive improvement

We will do this by:

- Create monitoring schedules that allow progress towards priorities to be checked regularly
- Leaders will track data for all children carefully and share this information with governors
- Leaders will create time to evaluate progress and work with an improvement partner to support this.

Early Years- Secure strong Early Years provision.

We will do this by: Developing a stronger provision for speech and language development. Work with staff to check everyone is identifying gaps quickly.
