Combined	30%	51%	59%

National Headlines

The proportion of pupils meeting the government's "expected standard" in reading, writing and maths SATs remained unchanged this year, after dropping six percentage points in 2022 following the Covid pandemic.

Results data published by the government this morning shows 59 per cent met the benchmark in the three tests.

Performance in reading has actually decreased since last year. In 2023, 73 per cent met the expected standard, down from 75 per cent. The scaled score required to achieve expected also dropped significantly (from 29/50 in 2022 to 24/50 this year) and you may have seen national news coverage around the difficulty of this year's test.

Performance in maths increased from 71 to 73 per cent, while the proportion meeting the government's benchmark in writing rose from 69 to 71 per cent.

The proportion of pupils meeting the expected standard in grammar, punctuation and spelling remained at 72 per cent, the same as last year, while performance in science rose from 79 to 80 per cent.
